3.02 ENVIRONMENTAL VIOLATION. A municipal infraction which is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. § 403.8.

(Code of Iowa, Sec. 657.3)

50.04 NUISANCE ABATEMENT. (Code of Iowa, Sec. 364.12[3h])

[†] **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

2. Method of Service. The notice may be in the form of an ordinance or sent by certified mail to the property owner.

(Code of Iowa, Sec. 364.12[3h])

3. Request for Hearing. Any person ordered to abate a nuisance may have a hearing with the Council as to whether a nuisance exists. A request for a hearing must be made in writing and delivered to the Clerk within the time stated in the notice, or it will be conclusively presumed that a nuisance exists and it must be abated as ordered. The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.

4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action which may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsection 1 and 2, and the hearing as provided in subsection 3.

(Code of Iowa, Sec. 364.12[3h])

5. Abatement by City. If the person notified to abate a nuisance or condition neglects or fails to abate as directed, the City may perform the required action to abate, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.

(Code of Iowa, Sec. 364.12[3h])

6. Collection of Costs. The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to abide by the notice to abate, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.

(Code of Iowa, Sec. 364.12[3h])

7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds one hundred dollars (\$100.00), the City may permit the assessment to be paid in up to ten (10) annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.

(Code of Iowa, Sec. 364.13)

8. Failure to Abate. Any person causing or maintaining a nuisance who shall fail or refuse to abate or remove the same within the reasonable time required and specified in the notice to abate is in violation of this Code of Ordinances.

56.02 Keeping of Vicious Animals Prohibited

56.01 DEFINITION. For use in this chapter, “vicious animal” means any animal that has attacked, bitten, or clawed a person while running at large (and the attack was unprovoked) or any animal that has exhibited vicious tendencies in present or past conduct, including such that said animal: (i) has bitten more than one person during the animal’s lifetime; or (ii) has bitten one person on two or more occasions during the animal’s lifetime; or (iii) has attacked any domestic animal or fowl, without provocation, causing injury or death while off the property of the owner.

56.02 KEEPING OF VICIOUS ANIMALS PROHIBITED. No person shall keep, shelter, or harbor for any reason within the City a vicious animal except in the following circumstances:

1. Animals under the control of a law enforcement or military agency.
2. The keeping of guard dogs; however, guard dogs must be kept within a structure or fixed enclosure at all times, and any guard dog found at large may be processed as a vicious animal pursuant to the provisions of this chapter. Any premises guarded by a guard dog shall be prominently posted with a sign containing the wording “Guard Dog,” “Vicious Dog,” or words of similar import, and the owner of such premises shall inform the Mayor or peace officer that a guard dog is on duty at said premises.

56.03 SEIZURE, IMPOUNDMENT AND DISPOSITION.

1. In the event that a vicious animal is found at large and unattended upon public property, park property, public right-of-way, or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, in the discretion of the Mayor or peace officer, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of a vicious animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.
2. Upon the complaint of any individual that a person is keeping, sheltering, or harboring a vicious animal on premises in the City, the Mayor or peace officer shall cause the matter to be investigated, and if, after investigation, the facts indicate that the person named in the complaint is keeping, sheltering, or harboring a vicious animal in the City, the Mayor or peace officer shall order the person named in the complaint to safely remove such animal from the City or destroy the animal within three (3) days of the receipt of such an order. Such order shall be contained in a notice to remove the vicious animal, which notice shall be given in writing to the person keeping, sheltering, or harboring the vicious animal, and shall be served personally or by certified mail. Such order and notice to remove the vicious animal shall not be required where such animal has previously caused serious physical harm or death to any person, in which case the Mayor or peace officer shall cause the

animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

3. The order to remove a vicious animal issued by the Mayor or peace officer may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three (3) days after receipt of the order contained in the notice to remove the vicious animal. Failure to file such written notice of appeal shall constitute a waiver of the right to appeal the order of the Mayor or peace officer.

4. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the Clerk. The hearing of such appeal shall be scheduled within seven (7) days of the receipt of the notice of appeal. The hearing may be continued for good cause. After such hearing, the Council may affirm or reverse the order of the Mayor or peace officer. Such determination shall be contained in a written decision and shall be filed with the Clerk within three (3) days after the hearing or any continued session thereof.

5. If the Council affirms the action of the Mayor or peace officer, the Council shall order in its written decision that the person owning, sheltering, harboring or keeping such vicious animal remove such animal from the City or destroy it. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the notice of removal. If the original order of the Mayor or peace officer is not appealed and is not complied with within three (3) days or the order of the Council after appeal is not complied with within three days of its issuance, the Mayor or peace officer is authorized to seize, impound, or destroy such vicious animal. Failure to comply with an order of the Mayor or peace officer issued pursuant to this chapter and not appealed, or of the Council after appeal, constitutes a municipal infraction. Accordingly, the requirements of this chapter may be enforced under the procedures applicable to municipal infractions as set forth in Chapter 3 of this Code of Ordinances.

75.06 Negligence

75.07 Accident Reports

75.01 PURPOSE. The purpose of this chapter is to regulate the operation of all-terrain vehicles and snowmobiles within the City.

75.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “All-terrain vehicle” or “ATV” means a motorized flotation-tire vehicle, with not less than three and not more than six low pressure tires, that is limited in engine displacement to less than one thousand (1,000) cubic centimeters and in total dry weight to less than one thousand (1,000) pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

(Code of Iowa, Sec. 321I.1)

2. “Off-road motorcycle” means a two-wheeled motor vehicle that has a seat or saddle designed to be straddled by the operator and handlebars for steering control and that is intended by the manufacturer for use on natural terrain. “Off-road motorcycle” includes a motorcycle that was originally issued a certificate of title and registered for highway use under Chapter 321 of the *Code of Iowa*, but which contains design features that enable operation over natural terrain. An operator of an off-road motorcycle is also subject to the provisions of this chapter governing the operation of all-terrain vehicles.

(Code of Iowa, Sec. 321I.1)

3. “Off-road utility vehicle” means a motorized flotation-tire vehicle, with not less than four and not more than eight low-pressure tires, that is limited in engine displacement to less than one thousand five hundred (1,500) cubic centimeters and in total dry weight to not more than one thousand eight hundred (1,800) pounds and that has a seat that is of bucket or bench design, not intended to be straddled by the operator, and a steering wheel or control levers for control. (Code of Iowa, Sec. 321I.1)

4. “Snowmobile” means a motorized vehicle weighing less than one thousand (1,000) pounds which uses sled-type runners or skis, endless belt-type tread with a width of forty-eight (48) inches or less, or any combination of runners, skis, or tread, and is designed for travel on snow or ice. “Snowmobile” does not include an all-terrain vehicle which has been altered or equipped with runners, skis, belt-type tracks, or treads.

(Code of Iowa, Sec. 321G.1)

75.03 GENERAL REGULATIONS. No person shall operate an ATV, off-road motorcycle or off-road utility vehicle within the City in violation of Chapter 321I of the *Code*

of Iowa or a snowmobile within the City in violation of the provisions of Chapter 321G of the Code of Iowa or in violation of rules established by the Natural Resource Commission of the Department of Natural Resources governing their registration, equipment and manner of operation.

(Code of Iowa, Ch. 321G & Ch. 321I)

75.04 OPERATION OF SNOWMOBILES. The operators of snowmobiles shall comply with the following restrictions as to where snowmobiles may be operated within the City:

2. Exceptions. Snowmobiles may be operated on prohibited streets only under the following circumstances:

- A. Emergencies. Snowmobiles may be operated on any street in an emergency during the period of time when and at locations where snow upon the roadway renders travel by conventional motor vehicles impractical.

(Code of Iowa, Sec. 321G.9[4c])

- B. Direct Crossing. Snowmobiles may make a direct crossing of a prohibited street provided all of the following occur:

- (1) The crossing is made at an angle of approximately ninety degrees (90°) to the direction of the street and at a place where no obstruction prevents a quick and safe crossing;

- (2) The snowmobile is brought to a complete stop before crossing the street;

- (3) The driver yields the right-of-way to all on-coming traffic which constitutes an immediate hazard; and

- (4) In crossing a divided street, the crossing is made only at an intersection of such street with another street.

(Code of Iowa, Sec. 321G.9[2])

3. Railroad Right-of-Way. Snowmobiles shall not be operated on an operating railroad right-of-way. A snowmobile may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321G.13[1h])

4. Trails. Snowmobiles shall not be operated on all-terrain vehicle trails except where so designated.

(Code of Iowa, Sec. 321G.9[4f])

5. Parks and Other City Land. Snowmobiles shall not be operated in any park, playground or upon any other City-owned property without the express permission of the City. A snowmobile shall not be operated on any City land without a snow cover of at least one-tenth of one inch.

6. Sidewalk or Parking. Snowmobiles shall not be operated upon the public sidewalk or that portion of the street located between the curb line and the sidewalk or

property line commonly referred to as the “parking” except for purposes of crossing the same to a public street upon which operation is authorized by this chapter.

75.05 OPERATION OF ALL-TERRAIN VEHICLES. The operators of ATVs shall comply with the following restrictions as to where ATVs may be operated within the City:

1. Streets. ATVs and off-road utility vehicles may be operated on streets only in accordance with Section 321.234A of the *Code of Iowa* or on such streets as may be designated by resolution of the Council for the operation of registered ATVs or registered off-road utility vehicles. In designating such streets, the Council may authorize ATVs and off-road utility vehicles to stop at service stations or convenience stores along a designated street.

(Code of Iowa, Sec. 321I.10[1 & 3])

2. Trails. ATVs shall not be operated on snowmobile trails except where designated.

(Code of Iowa, Sec. 321I.10[4])

3. Railroad Right-of-way. ATVs shall not be operated on an operating railroad right-of-way. An ATV may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321I.14[1h])

4. Parks and Other City Land. ATVs shall not be operated in any park, playground or upon any other City-owned property without the express permission of the City.

5. Sidewalk or Parking. ATVs shall not be operated upon the public sidewalk or that portion of the street located between the curb line and the sidewalk or property line commonly referred to as the “parking.”

75.06 NEGLIGENCE. The owner and operator of an ATV or snowmobile are liable for any injury or damage occasioned by the negligent operation of the ATV or snowmobile. The owner of an ATV or snowmobile shall be liable for any such injury or damage only if the owner was the operator of the ATV or snowmobile at the time the injury or damage occurred or if the operator had the owner’s consent to operate the ATV or snowmobile at the time the injury or damage occurred.

(Code of Iowa, Sec. 321G.18 & 321I.19)

75.07 ACCIDENT REPORTS. Whenever an ATV or snowmobile is involved in an accident resulting in injury or death to anyone or property damage amounting to one thousand five hundred dollars (\$1,500.00) or more, either the operator or someone acting for the operator shall immediately notify a law enforcement officer and shall file an accident report, in accordance with State law.

The use of any other pipe material for the service line shall first be approved by the Superintendent. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to

finish or correct the work, and the Council shall assess the costs to the property owner. Such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

95.09 SPECIAL PENALTIES. The following special penalty provisions shall apply to violations of these Sanitary Sewer chapters:

1. Notice of Violation. Any person found to be violating any provision of these chapters except subsections 1, 3, and 4 of Section 95.04, shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

96.02 Connection Charge
96.03 Plumber Required
96.04 Excavations
96.05 Connection Requirements

96.06 Interceptors Required
96.07 Sewer Tap
96.08 Inspection Required
96.09 Property Owner's Responsibility

96.01 APPLICATION FOR SERVICE. No person shall make any connection to the public sewer system without first making an application for service to the City. The application for service shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The property owner shall complete construction and connection of the building sewer to the public sewer within sixty (60) days after the application for service, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted.

96.02 CONNECTION CHARGE. The person who makes the application shall pay a connection charge in the amount of three hundred fifty dollars (\$350.00) to reimburse the City for costs borne by the City in making sewer service available to the property served.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State licensed plumber.

96.04 EXCAVATIONS. All trench work, excavation and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made

gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

- A. Recommended grade at one-fourth (1/4) inch per foot.
- B. Minimum grade of one-eighth (1/8) inch per foot.
- C. Minimum velocity of 2.00 feet per second with the sewer half full.
- D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the State Plumbing Code except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
- B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
- C. Ductile iron water pipe – A.W.W.A. C-151.
- D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the State Plumbing Code, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the

owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

CHAPTER 97

USE OF PUBLIC SEWERS

97.01 Storm Water

97.02 Prohibited Discharges

97.04 Restricted Discharges; Powers

97.05 Special Facilities

97.06 Control Manholes

97.07 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer or natural outlet.

97.02 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five-day biochemical oxygen demand greater than 300 parts per million by weight, or (b) containing more than 350 parts per million by weight of suspended solids, or (c) having an average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to 300 parts per million by weight, or (b) reduce the suspended solids to 350 parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to

proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.03 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty degrees (150°) F (65° C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between 32° F and 150° F (0° to 65° C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, Federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

- B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
 12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
 13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.04 RESTRICTED DISCHARGES – POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.03 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.05 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner’s expense.

97.06 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to

facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.07 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

(IAC, 567-69.1[3])

98.06 MAINTENANCE OF SYSTEM. The owner of an on-site wastewater treatment and disposal system shall operate and maintain the system in a sanitary manner at all times and at no expense to the City.

98.07 SYSTEMS ABANDONED. At such time as a public sewer becomes available to a property served by an on-site wastewater treatment and disposal system, as provided in Section 95.05, a direct connection shall be made to the public sewer in compliance with these Sanitary Sewer chapters and the on-site wastewater treatment and disposal system shall be abandoned and filled with suitable material.

99.03 SPECIAL RATES. Where, in the judgment of the Superintendent and the Council, special conditions exist to the extent that the application of the sewer charges provided in Section 99.02 would be inequitable or unfair to either the City or the customer, a special rate shall be proposed by the Superintendent and submitted to the Council for approval by resolution.

(Code of Iowa, Sec. 384.84)

99.04 PRIVATE WATER SYSTEMS. Customers whose premises are served by a private water system shall pay the minimum sewer service charge of \$25.00 per month and a usage charge based upon the water used as determined by the City either by an estimate agreed to by the customer or by metering the water system at the customer's expense. Any negotiated or agreed-upon sales or charges shall be subject to approval of the Council.

99.05 PAYMENT OF BILLS. All sewer service charges are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.04 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.05 if the combined service account becomes delinquent, and the provisions contained in Section 92.08 relating to lien notices shall also apply in the event of a delinquent account.

99.06 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

99.07 SPECIAL AGREEMENTS PERMITTED. 99.08 ACCOUNTING PROCESS.

1. All revenues and moneys derived from the operation of the sewer system shall be paid to and held by the City Clerk, separate and apart from all other funds of the City, and all of said sums and all other funds and moneys incident to the operation of said system, as may be delivered to the City, shall be deposited in a separate fund designated the "Sewer Revenue Fund."

2. The City Clerk shall establish a proper system of accounts and shall keep proper records, books, and accounts in which complete and correct entries shall be made of all transactions relative to the sewer system and at regular annual intervals the Council shall cause to be made an audit by an independent auditing concern of the books to show the receipts and disbursements of the sewer system. The City Clerk shall be required annually to prepare a budget of the Sanitary Sewer System to show the required revenues and expenses. If necessary, sewer service charges will be adjusted to produce adequate income to retire the indebtedness, meet operation, maintenance and replacement needs, and establish required reserves.

In measuring a yard for the purpose of determining the depth of a front yard or the depth of a rear yard, the least distance between the lot line and the overhang shall be used. In measuring a yard for the purpose of determining the width of a side yard, the least distance between the lot line and the overhang shall be used.

23. “Yard, front” means a yard extending across the full width of the lot and measured between the front lot line and the overhang of the building.

24. “Yard, rear” means a yard extending across the full width of the lot and measured between the rear lot line and the building or any projection thereof, other than steps, unenclosed balconies or unenclosed porches. On both corner lots and interior lots the opposite end of the lot from the front yard.

25. “Yard, side” means a yard extending from the front yard to the rear yard and measured between the side lot lines and the nearest building, or projection thereof.

155.03 DISTRICT AND BOUNDARIES. The Official Restricted Residence District Map is on file with the City Clerk and is made a part of this chapter. Said map delineates various areas of the City into the following classifications:

“R-1” - Restricted Residence District

“UR” - Unrestricted

For the purpose of this chapter, all restrictions described herein are applicable in the “R-1” Restricted Residence District. All district boundary lines shown on the official map correspond with property lines or street lines or center lines of right-of-way. In the case of a district boundary line which divides a property of single ownership, the City Council may make such boundary line adjustments as to place said lot of single ownership in or out of the Restricted Residence District.

155.04 BUILDING PERMIT REQUIRED. No building shall be erected, reconstructed or structurally altered within the City unless a building permit approved by the Council and signed by the Mayor has been issued for each erection, reconstruction or structural alteration. The fee for a building permit is ten dollars (\$10.00).

155.05 RESTRICTED RESIDENCE DISTRICT. The following regulations shall apply in all areas designated in the “R-1” Restricted Residence District.

1. Principal Permitted Uses. The following are uses allowed in the “R-1” Restricted Residence District:
 - A. One- and two-family dwellings.
 - B. Churches, cathedrals, temples, and similar places of worship.
 - C. Public and parochial schools, elementary and secondary, and other educational institutions.
 - D. Fire stations.
 - E. Publicly owned parks, playgrounds, golf courses, and recreation areas.

- F. Conversion of one-family dwellings into two-family dwellings in accordance with the lot area, frontage, height, and yard requirements of this section.
- G. Multiple dwellings.
- H. Boarding and rooming houses and group housing.
- I. Institutions of a religious, educational or philanthropic nature, including libraries.
- J. Nursing, convalescent, and retirement homes.
- K. Private clubs, lodges, or veterans organizations.
- L. Bed and breakfast facilities.
- M. Recycling drop boxes.

Uses other than those permitted in this section may be erected, reconstructed, altered, or placed, provided the City Council shall have approved, after a public hearing, the said erection, reconstruction, alteration, or placement.

2. Permitted Accessory Uses. The following accessory uses are permitted in the Restricted Residence District:

- A. A customary home occupation as a secondary use carried on entirely within the residence not including any garage or other building or structure not designed and used for daily, human habitation and where there is no evidence of such occupation being conducted on the premises by virtue of signs, or displays, or excessive noise, odors, electrical disturbances, or traffic generation, except one sign not larger than six (6) square feet in area, with no more than one nonresident assistant and where not more than one-half of the floor area of any one floor is devoted to such use.
- B. A residential accessory building or structure customarily used in conjunction with a dwelling, namely, a garage with a capacity of not more than three (3) cars, or a private swimming pool properly fenced and screened, none of which is to exceed the square footage of the principal building. Any other building on residential property shall not be deemed a residential accessory use if not incidental to a residential purpose, or if it is used in conjunction with or for the business of selling goods or rendering services.
- C. All dwellings or other structures, including accessory buildings, shall not cover more than 40% of the lot area. If more than one lot is used the percentage shall be computed on the combined size of the lots.

3. Lot and Building Regulations. The following minimum requirements shall be met:

- A. Lot Area:
 - One-family dwelling - 6,000 square feet.
 - Two-family dwelling - 7,500 square feet.
 - Multiple-family dwelling or other permitted use – 1,500 square feet per dwelling unit.

- B. Lot width: One-family dwelling - 50 feet.
Two-family dwelling - 60 feet.
Multiple-family dwelling and other permitted uses - 75 feet.
 - C. Front yard: 25 feet.
 - D. Side yards: 6 feet.
 - E. Rear yard: 25 feet.
 - F. Maximum height:
Principal building - 35 feet
Accessory building - 18 feet.
 - G. Off-street parking: 2 spaces per dwelling unit. No off-street parking is permitted in the front yard of a restricted residence district, except upon a regularly constructed, duly authorized driveway.
4. Mobile Home Parks. All mobile homes in a mobile home park shall have a minimum front yard of ten (10) feet and a minimum rear yard of ten (10) feet.

155.06 BUILDINGS REQUIRING SPECIAL PERMITS.

1. No building or other structure, except a permitted principal or accessory use, shall be erected, altered, used or occupied within the Restricted Residence District without first receiving from the Council a special use permit therefor.
2. The construction of any other building or structure may be authorized by special permit to locate within the restricted residence district only if it appears that said use and type of building will be compatible with the residential character of the district, and that the particular use could not practicably be built in an unrestricted area or the restricted district boundaries amended logically, due to topography, access to highway or other proper reason acceptable to the Council.
3. The special permit shall be applied for in writing on forms available from the City, and shall be accompanied by plans and specifications sufficient to determine compliance with applicable ordinances of the City. Said application shall be made to the Clerk at least seven (7) days before the Council meeting at which the request for Council action is made. No special permit shall or will be granted until notice of the application has been posted or the fact of application has been set out in the posted proceedings of the Council at least seven (7) days prior to the meeting at which final action granting or denying the permit request is made. Such permit shall require a majority vote of all the members of the Council.

155.07 PROTEST. No special use permit shall be granted when 60% of the residential real estate owners in said district who are located within 300 feet from the legally surveyed property lines of the proposed building and occupancy object thereto, except by a unanimous vote of all of the members of the Council.

155.08 NONCONFORMING USES.

1. Intent. Within the Restricted Residence District established by this chapter, or its amendments, there exist structures and uses of land and structures with or without

nonconforming structures which were lawful or vested nonconforming uses prior to the adoption of this chapter or its amendments, but which would be prohibited, regulated, or restricted under the provisions of this chapter. It is the intent of this chapter to permit these nonconformities to continue even though they are incompatible with the district in which they are located so long as the provisions hereinafter set forth are complied with. However, it is the general intent to restrict nonconforming structures and uses so that ultimately uniformity will prevail.

2. Nonconforming Uses of Land. The lawful use of land upon which no building or structure is erected or constructed, which is a vested nonconforming use under this chapter as adopted or amended may be continued, so long as such use remains otherwise lawful, subject to the following provisions:

- A. No such nonconforming use shall be enlarged or increased or extended to occupy a greater use of land.
- B. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel.
- C. No structure or building shall be constructed on or moved onto the land, unless the use is changed to a use permitted in the district.
- D. If any such nonconforming use of land ceases for any reason for a period of more than one year, any subsequent use of such land shall conform to the district regulations specified by this chapter.

3. Nonconforming Uses of Structures. If a lawful use of vested nonconforming use of a structure, or of a structure and land in combination, exists at the effective date of adoption or amendment of this chapter, that would not be allowed in the district under the terms of this chapter, the use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted entirely or in part to a use not permitted by this chapter in the district in which it is located shall be enlarged, extended, reconstructed, moved, or structurally altered, unless the use is changed to a use permitted in the district in which it is located.
- B. Any nonconforming use may be extended throughout any parts of a building which was manifestly arranged or designed for such use at the time it became nonconforming, but no such use shall be extended to any land outside such building.
- C. If no structural alterations are made, a nonconforming use of a structure may be changed to another nonconforming use of a similar nature or a more restricted use. Whenever a nonconforming use has been changed to a more restricted use or to a conforming use, such use shall not thereafter be changed to a less restrictive use.
- D. In the event that a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for a period of one year, the use of the same shall thereafter conform to the uses permitted in the district.
- E. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall terminate the authorization for the nonconforming use of the land.

4. Nonconforming Structures. Where a structure is nonconforming by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

A. No such structure may be enlarged or altered in a way which increases its nonconformity.

B. Should such structure be destroyed by any means to an extent of sixty percent (60%) or more of its replacement cost at the time of destruction, exclusive of the foundations, it shall not be reconstructed except in conformity with the provisions of this chapter, provided it be reconstructed within six (6) months of such happening.

5. Repairs and Maintenance. Nothing in this section shall prohibit the maintenance and repair of nonconforming structures to keep such structure in sound and safe condition, provided that no structural enlargement, extension, alteration, or change shall be made to increase the degree of nonconformity.

155.09 RENEWAL OF PETITION AFTER DENIAL. Whenever a petition requesting amendment, supplement, or change of any regulation prescribed by this chapter has been denied by the Council, such petition cannot be renewed for one year thereafter unless it be signed by the owners of at least 60% of the property owners who previously objected to the change. This provision, however, shall not prevent the Council from acting on its own initiative in any case or at any time as provided in this section.

155.10 AMENDMENTS. From time to time the City Council may wish to amend, change, or alter provisions of this chapter and/or the official map, which is a part of this chapter. Such amendments, changes, or alterations are hereby allowed, provided that prior to such amendment a public hearing be held at which time all parties involved in such an amendment including those in adjacent properties may be heard. Notice of the public hearing pertaining to amendments, changes, or alterations of this chapter shall be made in accordance with the adopted procedures for conducting such hearings. Upon adoption, publication, and recordation by the City Council, such amendments, changes, or alterations shall become effective.

155.11 VIOLATION. Any building or structure erected, altered, repaired or used in violation of this chapter shall be deemed a nuisance, and the City Council may provide for the abatement of such nuisance through the procedures outlined in Chapter 50 of this Code of Ordinances.

160.01 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. Statutory Authority. The Legislature of the State of Iowa has in Chapter 364, Code of Iowa, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents.

2. Findings of Fact.

A. The flood hazard areas of the City of Elma are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.

B. These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.

3. Statement of Purpose. It is the purpose of this Chapter to protect and preserve the rights, privileges and property of the City of Elma and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in Section 160.01(2)(A) of this Chapter with provisions designed to:

A. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.

B. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.

- C. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
- D. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this Chapter shall be interpreted so as to give them the meaning they have in common usage and to give this Chapter its most reasonable application.

1. “Base flood” means the flood having a one percent chance of being equaled or exceeded in any given year. (See 100-year flood.)
2. “Basement” means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. (Also see “lowest floor.”)
3. “Development” means any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations.
4. “Existing construction” means any structure for which the “start of construction” commenced before the effective date of the community’s Flood Insurance Rate Map. (May also be referred to as “existing structure.”)
5. “Existing factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) was completed before the effective date of these flood plain management regulations.
6. “Expansion of existing factory-built home park or subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
7. “Factory-built home” means any structure designed for residential use which is wholly or in substantial part made, fabricated, formed, or assembled in manufacturing facilities for installation or assembly and installation on a building site. For the purpose of this Chapter, “factory-built home” includes mobile homes, manufactured homes, and modular homes and also includes recreational vehicles which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
8. “Factory-built home park” means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
9. “Flood” means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
10. “Flood elevation” means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood elevation is the elevation of floodwaters related to the occurrence of the 100-year flood.

11. “Flood Insurance Rate Map (FIRM)” means the official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the community.
12. “Flood plain” means any land area susceptible to being inundated by water as a result of a flood.
13. “Flood plain management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including but not limited to emergency preparedness plans, flood control works, flood proofing, and flood plain management regulations.
14. “Flood proofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities which will reduce or eliminate flood damage to such structures.
15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge floodwaters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one foot.
16. “Floodway fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.
17. “Historic structure” means any structure that is:
 - A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing in the National Register;
 - B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
 - C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
 - D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either (i) an approved State program as determined by the Secretary of the Interior or (ii) directly by the Secretary of the Interior in states without approved programs.
18. “Lowest floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:
 - A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the provisions of Section 160.09(4)(A); and
 - B. The enclosed area is unfinished (not carpeted, dry-walled, etc.) and used solely for low damage potential uses such as building access, parking or storage; and

- C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one foot above the 100-year flood level; and
- D. The enclosed area is not a “basement” as defined in this section.

In cases where the lowest enclosed area satisfies criteria A, B, C, and D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

- 19. “Minor projects” means small development activities (except for filling, grading and excavating) valued at less than \$500.
- 20. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the Flood Insurance Rate Map.
- 21. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of these flood plain management regulations.
- 22. “100-year flood” means a flood, the magnitude of which has a one percent chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded at least once every 100 years.
- 23. “Recreational vehicle” means a vehicle which is:
 - A. Built on a single chassis;
 - B. Four hundred (400) square feet or less when measured at the largest horizontal projection;
 - C. Designed to be self-propelled or permanently towable by a light duty truck; and
 - D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.
- 24. “Routine maintenance of existing buildings and facilities” means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damage structure. Such repairs include:
 - A. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
 - B. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;
 - C. Basement sealing;
 - D. Repairing or replacing damaged or broken window panes;
 - E. Repairing plumbing systems, electrical systems, heating or air conditioning systems and repairing wells or septic systems.

25. “Special flood hazard area” means the land within a community subject to the “100-year flood.” This land is identified as Zone A on the Flood Insurance Rate Map.
26. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.
27. “Structure” means anything constructed or erected on the ground or attached to the ground, including (but not limited to) buildings, factories, sheds, cabins, factory-built homes, storage tanks, and other similar uses.
28. “Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.
29. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:
- A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either (i) before the “start of construction” of the improvement, or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred. The term does not, however, include any project for improvement of a structure to comply with existing State or local health, sanitary, or safety code specifications which are solely necessary to assure safe conditions for the existing use. The term also does not include any alteration of an “historic structure,” provided the alteration will not preclude the structure’s designation as an “historic structure.”
 - B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the Flood Insurance Rate Map shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.
30. “Variance” means a grant of relief by a community from the terms of the flood plain management regulations.
31. “Violation” means the failure of a structure or other development to be fully compliant with this Chapter.

160.03 LANDS TO WHICH CHAPTER APPLIES. The provisions of this Chapter shall apply to all lands and uses which have significant flood hazards. The Flood Insurance Rate Map (FIRM) for Howard County and Incorporated Areas, City of Elma, Panels 19089C0164B, 0168B, 0277B, 0281B, dated September 16, 2011, which were prepared as part of the Howard County Flood Insurance Study, shall be used to identify such flood hazard areas and all areas shown thereon to be within the boundaries of the 100- year flood shall be considered as having significant flood hazards. Where uncertainty exists with respect to the precise location of the 100-year flood boundary, the location shall be determined on the basis of the 100-year flood elevation at the particular site in question. The Flood Insurance Study for the County of Howard County is hereby adopted by reference and is made a part of this chapter for the purpose of administering floodplain management regulations.

160.04 RULES FOR INTERPRETATION OF FLOOD HAZARD BOUNDARIES. The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the City Clerk shall make the necessary interpretation. The Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Clerk in the enforcement or administration of this Chapter.

160.05 COMPLIANCE. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this Chapter and other applicable regulations which apply to uses within the jurisdiction of this Chapter.

160.06 ABROGATION AND GREATER RESTRICTIONS. It is not intended by this Chapter to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this Chapter imposes greater restrictions, the provision of this Chapter shall prevail. Any ordinances inconsistent with this Chapter are hereby repealed to the extent of the inconsistency only.

160.07 INTERPRETATION. In their interpretation and application, the provisions of this Chapter shall be held to be minimum requirements and shall be liberally construed in favor of the Council and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

160.08 WARNING AND DISCLAIMER OF LIABILITY. The standards required by this Chapter are considered reasonable for regulatory purposes. This Chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This Chapter shall not create liability on the part of the City or any officer or employee thereof for any flood damages that result from reliance on this Chapter or any administrative decision lawfully made thereunder.

160.09 FLOOD PLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and shall meet the following applicable performance standards. Where 100-year flood data has not been provided on the Flood Insurance Rate Map, the Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All Development. All development within the special flood hazard areas shall:

- A. Be consistent with the need to minimize flood damage;
 - B. Use construction methods and practices that will minimize flood damage;
 - C. Use construction materials and utility equipment that are resistant to flood damage; and
 - D. Obtain all other necessary permits from Federal, State, and local governmental agencies, including approval, when required, from the Iowa Department of Natural Resources.
2. Residential Buildings. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one foot above the 100-year flood level. Construction shall be upon compacted fill which shall, at all points, be no lower than one foot above the 100-year flood level and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers) may be allowed, subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures shall be provided with a means of access which will be passable by wheeled vehicles during the 100-year flood.
3. Nonresidential Buildings. All new or substantially improved nonresidential buildings shall have the lowest floor (including basement) elevated a minimum of one foot above the 100-year flood level, or together with attendant utility and sanitary systems, be flood-proofed to such a level. When flood proofing is utilized, a professional engineer registered in the State shall certify that the flood proofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces, and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level, is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum) to which any structures are flood-proofed shall be maintained by the Administrator.
4. All New and Substantially Improved Structures.
- A. Fully enclosed areas below the “lowest floor” (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:
 - (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - (2) The bottom of all openings shall be no higher than one foot above grade.
 - (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access, and low damage potential storage.

B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-Built Homes.

A. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one foot above the 100-year flood level.

B. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

6. Utility and Sanitary Systems.

A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.

B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system as well as the discharge of effluent into floodwaters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one foot above the 100-year flood elevation.

C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system. Water supply treatment facilities other than on-site systems shall be provided with a level of protection equal to or greater than one foot above the 100-year flood elevation.

D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

7. Flammable or Explosive Materials. Storage of equipment and materials that are flammable, explosive, or injurious to human, animal, or plant life is prohibited unless elevated a minimum of one foot above the 100-year flood level. Other material and equipment must either be similarly elevated or: (i) not subject to major flood damage and anchored to prevent movement due to floodwaters; or (ii) readily removable from the area within the time available after flood warning.

8. Levees and Floodwalls. Flood control structural works such as levees, floodwalls, etc. shall provide, at a minimum, protection from a 100-year flood with a

minimum of three feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.

9. Watercourse Alterations. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.

10. Subdivisions. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this Chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than 5 acres or 50 lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Special Flood Hazard Area.

11. Accessory Structures.

A. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied:

- (1) The structure shall not be used for human habitation.
- (2) The structure shall be designed to have low flood damage potential.
- (3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
- (4) The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.
- (5) The structure's service facilities such as electrical and heating equipment shall be elevated or flood-proofed to at least one foot above the 100-year flood level.

B. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

A. Recreational vehicles are exempt from the requirements of Section 160.09(5) of this Chapter regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

- (1) The recreational vehicle shall be located on the site for less than 180 consecutive days, and
- (2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of Section 160.09(5) of this Chapter regarding anchoring and elevation of factory-built homes.

13. Pipelines. Pipeline river and stream crossings shall be buried in the streambed and banks or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

160.10 ADMINISTRATION. The City Clerk shall implement and administer the provisions of this Chapter and will herein be referred to as the Administrator. Duties and responsibilities of the Administrator include, but are not necessarily limited to, the following:

1. Review all flood plain development permit applications to assure that the provisions of this Chapter will be satisfied.
2. Review all flood plain development permit applications to assure that all necessary permits have been obtained from Federal, State and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.
3. Record and maintain a record of the elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of all new or substantially improved structures in the special flood hazard area.
4. Record and maintain a record of the elevation (in relation to North American Vertical Datum) to which all new or substantially improved structures have been flood-proofed.
5. Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
6. Keep a record of all permits, appeals, and such other transactions and correspondence pertaining to the administration of this Chapter.

160.11 FLOOD PLAIN DEVELOPMENT PERMIT REQUIRED. A flood plain development permit issued by the Administrator shall be secured prior to any flood plain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations) including the placement of factory-built homes.

160.12 APPLICATION FOR PERMIT. Application for a flood plain development permit shall be made on forms furnished by the Administrator and shall include the following information:

1. Work To Be Done. Description of the work to be covered by the permit for which application is to be made.
2. Location. Description of the land on which the proposed work is to be done (i.e., lot, block, tract, street address, or similar description) that will readily identify and locate the work to be done.
3. Use or Occupancy. Indication of the use or occupancy for which the proposed work is intended.
4. Flood Elevation. Elevation of the 100-year flood.

5. Floor Elevation. Elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be flood-proofed.
6. Cost of Improvement. For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
7. Other. Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this Chapter.

160.13 ACTION ON APPLICATION. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this Chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the Council.

160.14 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATION AND PLANS. Flood plain development permits, issued on the basis of approved plans and applications, authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this Chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State, that the finished fill, building floor elevations, flood proofing, or other flood protection measures were accomplished in compliance with the provisions of this Chapter, prior to the use or occupancy of any structure.

160.15 VARIANCES. The City Council may authorize upon request in specific cases such variances from the terms of this Chapter that will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions of this Chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards:

1. Cause. Variances shall only be granted upon: (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.
2. Required To Afford Relief. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
3. Notice to Applicant. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this Chapter, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and (ii) such construction increases risks to life and property.

160.16 FACTORS UPON WHICH THE DECISION TO GRANT VARIANCES SHALL BE BASED. In passing upon applications for variances, the City Council shall consider all relevant factors specified in other sections of this Chapter and:

1. The danger to life and property due to increased flood heights or velocities caused by encroachments.
2. The danger that materials may be swept on to other land or downstream to the injury of others.
3. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.
4. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
5. The importance of the services provided by the proposed facility to the City.
6. The requirements of the facility for a flood plain location.
7. The availability of alternative locations not subject to flooding for the proposed use.
8. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
9. The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.
10. The safety of access to the property in times of flood for ordinary and emergency vehicles.
11. The expected heights, velocity, duration, rate of rise and sediment transport of the floodwater expected at the site.
12. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical, and water systems), facilities, streets, and bridges.
13. Such other factors which are relevant to the purpose of this Chapter.

160.17 CONDITIONS ATTACHED TO VARIANCES. Upon consideration of the factors listed in Section 160.16, the Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this Chapter. Such conditions may include, but not necessarily be limited to:

1. Modification of waste disposal and water supply facilities.
2. Limitation of periods of use and operation.
3. Imposition of operational controls, sureties, and deed restrictions.
4. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purposes of this Chapter.
5. Flood proofing measures.

160.18 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this Chapter, but which is not in conformity with the provisions of this Chapter, may be continued subject to the following conditions:

A. If such use is discontinued for six consecutive months, any future use of the building premises shall conform to this Chapter.

B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.

2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50 percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this Chapter. This limitation does not include the cost of any alteration to comply with existing State or local health, sanitary, building, or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.19 AMENDMENTS. The regulations and standards set forth in this Chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval from the Department of Natural Resources.

160.20 SEVERABILITY. If any section, clause, provision or portion of this Chapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this Chapter shall not be affected thereby.

160.21 PENALTIES FOR VIOLATION. Violations of the provisions of this Chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this Chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500.00 (five hundred dollars) or imprisoned for not more than thirty (30) days. Nothing herein contained shall prevent the City of Elma from taking such other lawful action as is necessary to prevent or remedy violation.
